### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### In the Claims

Claims 3 and 5 have been canceled.

2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 2 and 12 in this case, is the inclusion of the element having a single bend, wherein that single bend forms an apex, the element mounted such that the apex tends to cause the movable air bag to self-center at the apex, while not being locked to the element now included in the independent claim, in combination with the other elements recited, which is not found in the prior art of record.

The primary reason for the allowance of claims 4 and 6-10 in this case, is the inclusion of the arcuate bar configured with only a single bend in the bar now included in the independent claim, in combination with the other elements recited, which is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
